Course Description

University Catalog: Course is designed for majors to help them gain coherence in their theoretical knowledge, factual grounding, international living, personal aptitudes, and career aspirations. It will also give them experience in interdisciplinary research through preparation of a major scholarly paper. The format includes discussion, group analysis, visiting professors, and individual work.

This is a capstone course examining global studies that also delves into interconnected themes and critical assessment of issues affecting the contemporary world. The outcome of this course is to assess the degree to which students have individually achieved department Program Learning Objectives (PLO) specified for its majors. This course also aims to prepare graduates for postgrad productivity, so in addition to capstone discussions and exercises each student will develop a CV or resume, cover letter, and portfolio. Thus, the course will be a nice balance between theoretical discussions and action-based exercises.

Course Goals

Upon successful completion of this course Global Studies students will have a portfolio that demonstrates:

- GLST PLO 1. An interdisciplinary understanding of complex global events and processes of globalization in relationship to culture, politics, gender studies, sustainability, and foreign language.
- GLST PLO 2. The ability to write, speak, research, and critically analyze complex global events and processes of globalization.
• GLST PLO 3. Analysis, synthesis, and interpretation of texts, images, and experiences, demonstrating quantitative literacy, innovation of thought and creation of theoretical or practical solutions to global problems.
• GLST PLO 4. A critical understanding of the ethical implications of global citizenship, informed by global awareness and cross-cultural understanding.

Required Readings
Weekly required academic articles are provided to you on Canvas. Additional materials are listed below:

Other Readings (Print or Audiobook):
• Cantu, Francisco. 2018. The line becomes a river: Dispatches from the Border. Riverhead Books.
• You will also be re-reading and re-writing the most impactful work from your undergraduate experience in a GLST course.

Required Technology Accounts
You need to have the following account to be active during this course.
• Portfolium http://www.sjsu.edu/at/ec/Portfolium/

Students should also take advantage of all that Spartan Career Center offers http://www.sjsu.edu/careercenter/

Course Requirements and Assignments
SJSU classes are designed such that in order to be successful, it is expected that students will spend a minimum of forty-five hours for each unit of credit (normally three hours per unit per week), including preparing for class, participating in course activities, completing assignments, and so on.

1) Active Participation during all in-class exercises is mandatory and imperative to your overall success in this course. There are several class sessions when you will be presenting your assignments to get credit. These participations will be varied from reading discussions, peer reviews, food, film, and studio experiences and cannot be made up if absent.

2) During your undergraduate education, you have done considerable reading and writing. Select the reading most pivotal to your early GLST education. Choose one you loved (note: not just one assigned last semester)! Dig up what you wrote and revisit this assignment with a capstone lens – meaning that of a senior on the cusp of graduation, and as a student possessing greater wisdom and expanded perspective. Then Rewrite your assignment in 500 words. To get full credit you submit three parts as one pdf file in the following order: 1) a short description of the original assignment followed by your original submission, 2) a track changes revision displaying all edits, and 3) your final rewrite.

3) Professional development materials are necessary for postgraduate academic and professional successes. You will prepare a Resume or Curriculum Vitae (depending on whether you plan to pursue employment or graduate school respectively) plus a captivating Cover Letter telling a reader what you have achieved and the proven attributes/skills you can bring to an opportunity. You will also write a 500-word Personal Statement that tells us who you are and why you are a top candidate for this position or program. There are many excellent web resources and tutorials available to assist with your professional development and personal statement preparations but do take advantage of the SJSU career center.
4) An **Ignite Talk** is an opportunity to hook an audience on a topic. You will select a contemporary human rights issue from a list provided. Ignite (sometimes called spark talks) are presentations are specific and told in a 20-slide, 5-minute format. Slides must be automated to only display images and forward every 15-seconds without being touched by the speaker. This is fast, so the speaker must be well rehearsed, and all technology polished. Talks can be recorded so be sure to look professional and create a shining example of your verbal communication skills.

5) In a world of viral sound bites and headlines complex information must be communicated for immediate comprehension. This is often best achieved through graphics, infographics, charts, graph, and maps (not just words on a page). Each student must create a **Visualization** to convey scientific findings from the headline “Our trashy technosphere: people appear to have deposited a layer of waste across Earth’s surface that weighs 100,000 times more than all of humanity.” This will be printed in color on 8.5’ x 11’ paper and put on display for student competition.

6) Three **Books**, all popular reads, have been selected to accompany academic readings for conference-style discussion and debate. Students will be addressing text-specific questions selected and moderated by the instructor. The goal is for readers to tackle different perspectives and approaches to answering each question.

7) To celebrate food culture, we will have a **Potluck** dinner. Students will be tasked to recreate (from scratch using authentic ingredients) a dish from world regional cuisines sampled during the previous week as prepared by local restaurants. Students will create a story map about the dish and experience using Google Tour Builder. Bring enough to share with twenty others.

8) A complete and impressive **Portfolio**, using Portfolium, which highlights the breadth of your knowledge, skills, and experiences gained while in Global Studies. It is the expectation of this course that each student portfolio must contain: at least one assignment submission per PLO, plus all professional development materials (resume/CV, cover letter, and letter of recommendation), the re-writing sample, and a personal statement. Any submission from existing GLST work must be flawlessly revised per previous instructor feedback. Examples of previous coursework: reports or papers, infographic, maps/charts/figures, recorded presentations, writings (in any languages spoken), code, story maps, review articles, statement of research, landscape photography, or artworks. Consider your audience and curate your Portfolium for interesting, eye-catching content. The Ignite video and science visualization created during this course may make for wonderful new additions to your portfolio.

**Final Exam**
During the final exam, we will watch *Samsara* and interpret how this non-narrative experimental film represents your understanding of the world based on experiences and studies while at SJSU.
